

Leeton Shire Council HACC Services

The Leeton Shire Council Home & Community Care (HACC) Service is a Commonwealth program aimed at providing funding for services and assistance to people in need.

The Leeton Shire HACC services consist of:

- Meals on Wheels Service
- Social Support Service
- Home Modification and Maintenance Service

Anyone can contact the Leeton Shire HACC Services; whether to get assistance for yourself or to let staff know about someone else in the community that you think might be in need of support.

Leeton HACC is open and inclusive and our objective is to help people stay independent and able to live in their own homes for longer.

If you know anyone in need of a helping hand; whether it be a little support to ensure they can remain in their home, help preparing meals, home improvements to ensure safety or a friendly visitor, please don't hesitate to contact the Leeton Shire HACC team.

Volunteering – Join our team!

Volunteers are essential in order for us to continue to provide quality services and care to people in our community. Leeton residents, who are able to, are encouraged to get involved, help with delivery of our services, look out for their neighbours and do their bit for the community.

Living independently – at the heart of the Leeton Community.

The Leeton Shire HACC team is run by local people with local knowledge; call us today to speak to one of our friendly staff.
